

June 25, 2007

I have had the opportunity to work with Adil Dalal several times over the last few months and feel that I have benefited greatly from it. He is a very knowledgeable and well organized individual who is very committed to LeanSigma principles.

He has demonstrated his leadership, coaching, and mentoring skills during the events he has led at our facility. All of the people involved were well engaged and learned quickly from his instruction.

I would not hesitate to recommend him for a leadership role in an organization.

Sincerely,

Brett Young
LeanSigma Co-ordinator
